O.P.I PERMANENT NAIL POLISH

The durability of a permanent nail polish is individual and depends primarily on nail growth rate. It is important to point out that applying or removing permanent nail polish does not damage the nail. On the contrary, permanent polish protects the nail since it remains protected from mechanical and chemical damage and becomes firmer and more resistant with time. Permanent nail polish can also prevent the splitting and breaking of nails. It is removed easily and gently in less than 10 minutes, and a new colour can be applied after manicure. Our wellness centre offers a wide variety of permanent nail polishes in more than 40 hues, which means that everyone can find their favourite colour.

Price: 200 kn (without manicure)

NOTE: a manicure beforehand enhances the quality of permanent nail polish.
